Shin Weol

Is there anything that
inconveniences you?

Professor of the
Royal Academy
Ras Forte

Compared to the
stuffy air at the
academy,

it's much more
tolerable here.

I heard the
facility was going
to be renovated

using the
war funds.

REACH

What an interesting question. Your Majesty should not know about such an insignificant place....

Porter Workshop ..

was run by my mother's husband, I believe.

He is the one who passed on his genes to me, my biological father.

Didn't you have another family member?

No. I have a younger sister...

I haven't contacted them in the past ten years. Her workshop here.

If she were Professor Fort's daughter and your sister...

she would be the best talent. It's a pity I couldn't recruit her.

Are you talking about Koma...

You don't see Koma? I've said to have returned her...

We're always looking for her...

She did have great
intelligence in that
head of hers...

However, she won't be
the talented individual
you are looking for

She has a fatal
flaw despite her
great intelligence.

That is...

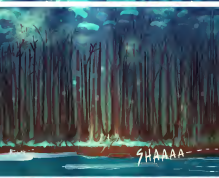

THAT'S POSSIBLE

Thank you

"The years for victory."
